

South West Shore Development Authority for March 11, 2010

Report for Council

The authority continues to work as usual in the region that includes Shelburne County, Yarmouth County and the Municipality of Clare until March 31, 2010.

In consultation with representatives of the five municipal partners in the Town of Lockeport, Town of Yarmouth, Municipality of Clare, Municipality of Argyle and Municipality of Yarmouth, a business plan for the 2010-2011 year was prepared and submitted. It was based on the result of the public community consultations in January, 2010 and council priorities. The Minister of Economic and Rural Development was asked to incorporate a new organization that would provide community economic services to the citizens in these five municipal units, beginning on April 1, 2010. A decision through a ministerial order is required under Regional Community Development Act.
